

June 28, 2019

Dear Country Club Residents:

The contractor is currently working to excavate and grade the road and the next activity you will notice is the underdrain installation. The contractor is approximately two weeks away from beginning to pour the new curbs. As always, the schedule and work is dependent on weather.

The contractor has been working with the USPS regarding mail delivery.

Temporary mailboxes will be installed on Saturday, June 29th. There will be a row of mailboxes placed just south of the driveway at 1088 Country Club Drive. The mailboxes will be labeled and installed in this address order 1020, 1025, 1045, 1061, 1040, and 1081. If you have any concerns related to mail delivery after the temporary mailboxes are installed, please contact the Field Representative.

We appreciate your cooperation and patience during this construction project.
