

August 2, 2019

Residents:

As the underground and infrastructure work progresses, you will notice the activity will be moving toward preparation for road paving. Beginning the middle of next week, crews will be out to start pulverizing the roads and prepping conditions for paving.

Safety of our residents and the crew members is our top priority. Please follow the construction signage and direction given by the workers managing the traffic flow on site. If you require assistance with access to and from your property, please contact the Onsite Field Representative, Tom Cairo.

Thank you for your continued patience during this project.

Project Contacts:

Onsite Field Representative Tom Cairo (248) 535-3437
