

August 9, 2019

Residents:

The water main installation and underground work continues on Lakewood Drive. The infrastructure installation should be completed by the beginning of next week, followed by the water main testing phase of the project. While it may seem as though there is a delay in activity during this time period, the water main testing is happening behind the scene.

Once the infrastructure improvements are in place and tested, we will send a communication when the paving work is expected to begin.

Project Contacts:

Onsite Field Representative Dave David (248) 535-3399

Project Engineer Lia Michaels (248) 454-6812
